### Price sheet

To make it easier for you, my customers, I have a price sheet of mixing and matching birds. The guide Fees are on here and how it can be broken down

What does a 12 bird hunt cost two guys if they split the costs? Now you will know. This PDF can be printed and handed off to others who are interested and might not have access to internet or can be taken to the local rod and guns clubs or trap range.

### Blog

In the next few weeks I will create a blog on my web page. The purpose of the blog is multi use and mostly to help my customers. There was a suggestion made to me by a fellow from Long Island. He is new to the sport of hunting. I thought his idea of a blog was great. It is never fun to bird hunt alone. Often people would come but they can not always get somebody to go hunting.

The blog will allow you guys a place to talk and ask questions, maybe find a hunting partner. It is always cheaper when you can split the birds. And often when your friends can go, you can not. So hopefully here is a resource of new hunting people. You may find somebody who knows more about hunting or shooting then you do.

### Chukar Challenge

January 10, 2010 <http://www.stonewallboarding.com/aacc.pdf>

Refer to web page for more details I would like to put on this year the first ever Stonewall Chukar Challenge, where the average hunter competes with his dog and somebody will walk away with some money from the amateur, doubles and puppy division. For once you and your dog's hunting skills

may pay for your birds and then some. The event objectives are "good" dog work, "good" marksmanship, a bit of luck, and lots of fun. If any of you are interested let me know as I am going to do this and you guys came to preserve last year so I want to give you first chance. More then likely we will have to limit the entries, but I thought this would be a blast and I hope you do too. I am not sure when more then likely after duck season and not during deer season close. Training Collars are allowed, but with in reason.

### Trained Gundogs <http://www.stonewallboarding.com/gundogs.html>

From time to time I will have trained gundogs on my web site for sale. Before these dogs go

On my web page I will have used them as a guide dogs at game preserve. A dog will not appear on my web page unless I have used the dog as a guide dog first. I want to know what kind of gundog they will make. If you are interested in the dog and wish to try the dog out. Just pay for the birds and we will

Take the dog out. **Currently For Sale English Pointer Female** broke 2 years old great bloodlines \$1700

### **Training your own dog on my land and with my birds**

Once hunting season is over, I will continue to have birds on hand. I am often asked, what makes a good hunting dog? This is by hunters just getting started with a dog. This is a very simple answer BIRDS, BIRDS and more BIRDS. There are so many people who do not have access to the two key things for training dogs, the birds and the land to train on. Many have asked me about training theirs dog I have decided to offer a type of guide service. You bring the dog out and I will assist you in setting out birds have all the equipment

necessary to train your dog. I will also shoot for you so that you can concentrate on your dog

I will also shoot for you so that you can concentrate on your dog and offer advice. The price of the birds will be their normal price and the guide fee will be a flat fee of \$100 for a max of two hours. Normally it will not take more than two hours. You will be amazed after 3 or 4 times the change in your dog. After you have shoot about 30 to 40 birds over your dog they are really starting to understand the game. Remember it is BIRDS that makes a good dog. And I have the **Land**, the **Birds**, and the **Knowledge!** For those with trained dogs wishing a brush up. If your dog is trained you can come out and use the birds and the land with out my helping for the normal price of the birds.
